

## **JCCA**

**When you work at a JCC you're a part of a professional family and a community.**

From top-quality nursery schools to state-of-the-art fitness centers, from innovative theaters and art galleries to supervised senior adult daycare, JCCs do it all. You can teach kids to play basketball or organize a ceramics class for retirees. You can supervise a teen swim meet or plan a carnival for handicapped children. You can run a computer class or design a Torah-study program. Whether your college degree is in recreation, Jewish communal service, sports management, non-profit management, or a variety of other fields, the 275 JCCs, YM-YWHAs and camps in North America need your skills!

Jewish Community Centers are multi-service community agencies that provide a wide array of programs, courses, and activities for people of all ages. In addition to stimulating and rewarding work, you'll enjoy a friendly family-like atmosphere that values your mental and physical well-being. JCC employees can use the on-site fitness facilities and take part in all of the programs available. Competitive salaries and generous holiday, vacation, and healthcare plans underscore your importance to the JCC.
